WHICH COMPUTER?

Which computer is best for you?

Which computer do you want to buy?

How will you decide?

So far, no hobby computer or small business computer has been offered for short term rental use and familiarization. Yet in many cases a sensible purchase decision cannot be made without such use.

Hourly, daily, or weekly rates would not be prohibitive if a demand for this really exists. And in some cases rental costs could be deducted from subsequent purchases.

If you are interested in this possibility, please fill in your name below and complete the reverse of this sheet. Leave it with us at our booth or mail it to our store. We will put you on our mailing list to advise you as to rental possibilities that seem feasible and are actually offered.

YES, I'm interested. Please keep me informed. I've filled in the back of this sheet.

Name _____

Address _____ Zip Code _____

Phone Number _____ Age _____ (if under 21)
